work experience

February 2007 to Present
Senior Artist
UCLA Extension

Responsibilities: design a wide range of communication vehicles (websites, catalogs, brochures, direct mail, special projects) for Extension's many continuing education programs. Also, consult with internal departments, collaborate with creative team, oversee press checks and production.

Results: My design work has helped boost enrollments in several struggling UCLA Extension programs. In addition, I have received awards of recognition and design excellence.

July 2002 to Present
Freelance Designer

Clients include Corcoran Gallery of Art, high-tech public relations firms, graphic design firms, associations and a start-up communications software development firm.

May 2003 to September 2004
Design Consultant
The Leonard Resource Group

Responsible for developing public affairs communications (websites, mailers, posters, event materials, logos) to support the U.S. Department of Labor's workforce development initiative. Other responsibilities included print buying, project management, art direction and photography.

January 2000 to July 2002
Designer
Conceptual Internet Services

Responsibilities included the creation and production of graphics materials for corporate identity, product and service branding, public relations and marketing initiatives; liaison between clients and vendors; account management duties. Also consulted with Fortune 500 clients, such as Microsoft and Verizon, in the selection of final concepts.

Skills included browser-based application design, GIF animation, Multimedia Flash development, HTML programming, JavaScript programming, DHTML programming, and Ecommerce store administration.
